

Bristol Water guided Pike Fly Fishing days with resident guide Martin Cottis

Bristol Water are pleased to announce 3 days of Guided Pike Fly Fishing with resident guide Martin Cottis during the 2019 pike fly fishing trials at Blagdon Lake.

Many anglers probably don't associate Martin with pike fly fishing....this couldn't be further from the truth! Martin, just like John Horsey, was one of the first pioneers of fishing for pike at Chew Valley Lake.

In the early days of pike fishing at Chew Valley Lake, Martin spent several years taking pike-fishing clients out on the lake - especially targeting pike with flies, something which he is passionate about. Martin has guided his clients to some magnificent captures of pike from the lakes over the years. This includes guiding his clients to 27 fish over 27lb. Quite a staggering statistic to remember!

Martin's extensive knowledge of the lakes and key fish holding areas is second to none and we are sure any customers taking advantage of this offering will not be disappointed!

29lb 14oz fly caught pike

Guided days with Martin Cottis are available on the following dates:

Friday 17th May 2019
Friday 4th October 2019
Tuesday 29th October 2019

Guided pike days are for either 1 or 2 anglers per session and all tackle can be provided if required. Anglers must adhere to the Bristol Water Fisheries pike fly fishing rules and regulations as found [HERE](#).
